14 day tour \$3,190* *Prices exclude airfares

- Customised tours available
- Non riders can be accommodated in our support vehicle.
- Discount rates for group bookings of 5 or more
- Minimum of 4 and max 10 in a group

The bikes

We ride Honda Mega Pro's

- ◆ 160cc single cylinder air cooled engine
- ◆ 5 speed gearbox
- ◆ Heated hand grips....just kidding

"The light weight of the bikes and the small engine sizes were ideal to the task.....coping with river crossings, deep mud bogs, steep rocky descents from sea level to mountain passes way higher than those through the Great Dividing Range" Stuart 2011

7 day tour departs: 1st Sept
12 day tours depart: 15 June, 3rd Aug & 21st Sept
14 day tour departs 8th May

Where we go

The **7 day tour** does a big loop from Dili to a remote island on the Eastern tip. From there we head over 2 mountain ranges before arriving back into Dili

The **12 day tour** follows a similar route but after a rest day in Dili we head out to the West through Balibo. We then go to the South before heading North again to the top of the highest mountain, Mt Ramelau.(3,000m)

The ride

It's East Timor! The roads are in poor condition, distances are measured in time not Km's, there are farm animals on the road and people wave to you when you travel through villages....it is nothing like riding at home, this is a real adventure

Outside of Dili the roads are quiet so you can enjoy the ride **and have a wonderful holiday**

What's included?
